FOREWORD

Abbreviations

- FN -** Footnote (FN) is a column in the parts list used to communicate information that directly affects the part it's lined up with. The number used will correspond with information located below the parts list.
- REF -** Reference (REF) is used in the part number column and indicates the part has special service information. The location of this information is often referenced in the description column.
- UAR -** Use As Required (UAR) is used in the quantity column indicating the number of parts used is determined by service needs.
- NSS -** Not Serviced Separately (NSS) in a part number column indicates the part is not available for service.

Parts Ordering Procedure

When ordering parts for your implement, please contact an authorized dealer in your area. If the parts are associated with a possible warranty claim, make sure that you contact the original dealer from which you purchased

the implement. Make sure to provide the Model, Serial number, Part number, Part description, and quantity.
